

AIA/CES Registered Provider Program Summary

Provider Name & Course Number: BASF Corporation – BASF SPF03

Program Title: Closed Cell Spray Polyurethane Foam and the Building Envelope

Length: 1.0 hours

Credits: 1.0 LU hour (Learning Units)

HSW: Yes

Program Overview: The teaching points will be on Closed cell Spray Polyurethane Foam (SPF) and the commercial building enveloped. Subject matter will contain discussions on safety with SPF use, SPF and NFPA 285 as well a review of the basic chemistry and some basic details.

Learning Objectives: After completion of this course, participants will be able to:

- Understand Basic Chemistry of Closed Cell Spray Foam
- Learn about Spray Polyurethane Foam Safety
- Get an understanding of NFPA 285 and Closed Cell Spray Foam
- Some Basic Commercial Jobsite Details and Comments

Facilitator Qualifications: The Point of Contacts (POC) are Katie Piotrowski and Meredith Getty. BASF Corporation is an experienced CES facilitator intimately familiar with the program development. We are active in the Building Enclosure Council (BEC), the ABAA (Air Barrier Association of America), the National Roofing Contractors Association (NRCA) and the Spray Polyurethane Foam Alliance (SPFA), and are on their technical committees related to the topics presented. Many facilitators are also LEED Accredited Professionals. The POCs have selected and trained the group of BASF Corporation CES facilitators to fully understand the AIA/CES Program Guidelines to execute program presentations as a Passport Provider.

Method of Delivery: The CES facilitator utilizes PowerPoint presentation to provide an in-depth overview of the program topic areas.

Audio/Visual required: Electrical power and screen for the PowerPoint presentation. The CES facilitator will supply the laptop and projector.

Cost to participants: There is no cost to bring this program into your firm or chapter meeting.
