360° Roof Vent – Gray

360° Roof Vent – Gray

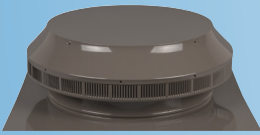

360° Roof Vent – Gray

360° Roof Vent

The 360° Roof Vent is an innovative static roof vent engineered to out-perform the standard slant-back vent. The 360° Roof Vent is designed to pull air from the attic with no obstructions or redirections.

- All-aluminum construction will not rust
- 8" opening for replacement of slant-back vents
- 50 square inches of NFA
- Limited Lifetime Warranty for the life of the current roof system
- Heavier gauge flange than competitors
- Innovative round design provides better pull and flow from the attic

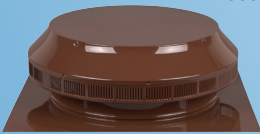

Product #	Model #	Outside diameter	Cost
80700	360GRAY	360° Roof Vent – Gray	\$12.00
80701	360BLACK	360° Roof Vent – Black	\$12.00
80702	360BROWN	360° Roof Vent – Brown	\$12.00

360 Double Louver™ – Gray

360 Double Louver™ – Black

360 Double Louver™ – Brown

360 Double Louver™

The 360 Double Louver™ is engineered for maximum airflow. The double louver design provides extra wind, weather, and critter protection while also using exterior wind to create suction. This innovative design creates more exhaust than similar size vents.

- All-aluminum construction will not rust
- 14" opening
- 144 square inches of NFA
- Limited Lifetime Warranty for the life of the current roof system
- Heavier gauge flange than competitors
- Innovative round design provides better pull and flow from the attic

Product #	Model #	Outside diameter	Cost
80703	DBL360GRAY	360 Double Louver™ – Gray	\$40.00
80704	DBL360BLACK	360 Double Louver™ – Black	\$40.00
80705	DBL360BROWN	360 Double Louver™ – Brown	\$40.00
